

Projects Installations Supervisor – North

Hörmann UK Ltd, are looking to recruit a Projects Installations Supervisor for the North within our busy Projects Department. This is a field based role although holiday cover for office based roles will be required.

Key areas of responsibility:

- Predominately field based role, reporting to the Installations Manager, responsible for managing our installations north of Leicester, ranging from £5K – £2M+ ensuring site is ready before we start and ensuring installation is completed on time by effective communication with the site managers and our sub contract teams.
- To site manage our Northern varied workload ensuring all changes and progress is effectively communicated to the projects team at all times. May need to travel south if work dictates.
- Develop and motivate teams of sub-contractors through effective working.
- Ensure sub-contractors comply with current H&S legislation, insurances and certification.
- Responsible for onsite competence audits of sub-contractors to ensure products are installed in accordance with manufacturer's details.
- Carry out site safety meetings & toolbox talks.
- Attend site prestart and safety meetings.
- Production of bespoke method statement & risk assessments.
- Providing excellent customer care at all times.

The Successful Applicant:

- Dynamic highly motivated individual with excellent communication skills.
- Ideal candidate would have an industrial door/loading bay or engineering background.
- IT competent in Word, Excel and Outlook.
- SSSTS qualification & CSCS Card holder is an advantage, although training can be arranged.
- AS400 experience would be advantageous.
- Proven Health & Safety in depth awareness.
- Full UK Clean driving licence.
- Work under own initiative and as part of a team.
