

40<sup>th</sup> anniversary press release  
January 2019  
Draft 02

## **Hörmann UK celebrates 40 years of first class sales and service**

Europe's leading door provider, Hörmann UK, is recognising a significant business milestone in 2019, marking its 40<sup>th</sup> anniversary with a range of events and incentives to celebrate both its customers and employees.

Founded in 1979 following the success of its German counterpart, Hörmann UK has firmly established itself as the number one provider of industrial products, domestic garage doors, front entrance doors and timber internal doors, as well as loading technology and much more besides.

Over the last four decades Hörmann UK has built a strong relationship with homeowners, architects, specifiers, warehouse owners and construction professionals, reflected in its diverse and ever expanding product and service offering.

Throughout 2019, Hörmann UK will be hosting trips for both its employees and customers to its headquarters in Steinhagen, Germany, for an opportunity to find out more about its German heritage and latest product developments, whilst also hosting a "40 years of Hörmann UK" gala event, following the Homebuilding & Renovating Show in March at the NEC.

Wolfgang Gorner, Managing Director of Hörmann UK, said: "Each year as a business we continue to go from strength-to-strength, with our 40 years in operation testament to the hard work and commitment of every single one of our employees. This iconic milestone presents us with the ideal opportunity to recognise each of them individually throughout the year with a special series of events."

The 40<sup>th</sup> Anniversary follows successful and continued growth in the service department, which has doubled over the last year to now offer a 20 strong fleet of engineers, available to both existing and non-clients. This has been achieved whilst also maintaining its impressive market share in the domestic sector, offering the highest standard in garage and entrance doors via its nationwide network of stockists.

Wolfgang continued: “2019 is an extremely exciting year for us as a business as we launch our new timber composite internal doors to the market, whilst also continuing to expand our dedicated projects team, working with some of the nation’s most high profile clients. The future is looking very positive for Hörmann UK and we are looking forward to building on this further throughout the year across all areas of the business.”

To celebrate the anniversary, Hörmann UK will also be giving away the 40<sup>th</sup> domestic garage door order it receives each month to a lucky end user, as a way to thank its customers for their continued loyalty and support.
