SupraMatic H4 – The New Premium Garage Door Operator from Hörmann

Hörmann UK have announced the launch of SupraMatic H4, their next-generation garage door operator designed to provide enhanced performance, energy efficiency, and intelligent connectivity.

Developed to meet the demands of modern homeowners, the SupraMatic H4 delivers a door opening speed of up to 250 mm/s and a pull and push force of up to 1000 N, making it one of the most powerful residential operators. Suitable for garage doors up to 7000 × 3000 mm, it offers smooth, fast, and secure operation.

With a stand-by power consumption of 0.6 watts and supplied CO2 neutral as standard, the SupraMatic H4 reflects Hörmann's ongoing commitment to product sustainability. It also features 60 high-efficiency LEDs to provide bright, energy-saving illumination across the entire garage.

The SupraMatic H4 is supplied with two hand transmitters and features Bluetooth connectivity for easy control via the Hörmann BlueSecur app for remote access via a smartphone. An integrated HCP bus interface allows for seamless integration with Smart home systems.
