Hörmann Duragrain Motif - Personalised Garage Doors Like Never Before

Hörmann UK are once again setting new standards in design flexibility and customer personalisation with the launch of its Duragrain Motif Collection. This innovative, creative development offers homeowners the ability to transform their garage doors with striking, design elements that enhance the aesthetic appeal of any property.

Available on LPU 42 L-ribbed sectional doors homeowners and designers can choose from over 80 exclusive motifs featuring cityscapes, landscapes, vehicles, abstract graphics, and bold graffiti art, plus stunning X-Large designs that feature large-scale imagery of textures like stone, concrete, and timber.

The addition of a Custom Print option allows customers to upload their own images – a favourite photo, artwork, or branding – and see it come to life. This personalised printing technology provides high-resolution, UV-resistant finishes that are both durable and visually stunning.

The new motifs are available via the Hörmann online configurator, an intuitive interface where users can select from preset designs or upload their custom visuals. The configurator enables visualisation of door designs, allowing customers to see exactly how their chosen image will look on their garage.

The introduction of Duragrain Motif sees Hörmann continuing to push the boundaries of what's possible in garage door design, delivering both technical excellence and artistic freedom.
