

2026 Academy Training
November 2025

Hörmann Announces 2026 Dates for Academy Training programme

Hörmann UK has launched the dates for its 2026 installation and product training courses, to be held at the company's state-of-the-art Training Academy in Coalville, Leicestershire. With 50 sessions scheduled throughout the year, the programme is offered free of charge to Hörmann's trade partners and covers both the domestic and industrial product ranges.

The domestic training will focus on the installation of Hörmann's extensive selection of garage doors, entrance doors, and operators, including the range of Hörmann Truedor composite doors. In addition, sales and product modules will provide insight into product features, benefits, accurate specification, and pricing – giving installers the tools to offer a complete solution to customers.

For the industrial sector, courses will cover the installation and configuration of Hörmann's full industrial door portfolio, including dock levellers and associated equipment. These sessions are designed to provide a deeper understanding of the product range and help trade partners better support their clients with tailored industrial solutions.

A dedicated platform, Hörmann Events, helps streamline the booking process, allowing trade partners to find detailed course descriptions, available dates, and make bookings quickly and easily.

David O'Mara, Marketing Manager at Hörmann UK, commented, "Since the launch of the Hörmann Academy in 2019, we've trained hundreds of installers and trade professionals each year. It continues to play a vital role in supporting our partners with effective and up-to-date training and for 2026, we're once again offering an extensive programme to meet demand across all areas. The sessions are always popular and book up quickly, so I'd encourage our partners to secure their place as soon as possible."

In addition to face-to-face sessions at the Coalville Academy, Hörmann also provides a range of training videos via the Hörmann UK YouTube channel, offering on-demand support for commonly encountered installation issues.

For more information about the courses, please contact Marizel Le Roux at m.leroux.lei@hormann.co.uk.
