

Tremendous ten promotion revisit
DIJ Summer Issue

**Hörmann Truedor Makes Door Choice Simple -
Ten Styles, Ten Colours, Ten Days**

The Tremendous 10 promotion from Hörmann Truedor provides installers and dealers a compelling opportunity to capitalise on fast-turnaround composite doors that combine strong consumer appeal with excellent value for money.

The Tremendous 10 promotion offers a carefully curated range of 10 best-selling composite door styles, available in 10 popular colour options, all delivered in just 10 working days. With prices starting from £450.00 plus VAT, the promotion has been designed to help trade customers win more business while protecting margins.

The door styles have been specifically selected to reflect current market demand and include designs from the Hörmann Truedor Cottage, Traditional and Contemporary collections. This focused range makes it easy for installers to offer homeowners genuine choice without unnecessary complexity, supporting faster sales decisions and smoother ordering.

All doors are supplied with standard glazing where applicable and are available with white frames or Anthracite on white frames, alongside low aluminium thresholds as standard. Installers can also choose from three sill sizes, providing flexibility for a wide range of installation requirements.

Hardware specification is equally strong, with every door supplied complete with a multi-point locking system, chrome lever handle and letterbox, and Hörmann Truedor has recently enhanced the package further with the addition of a chrome knocker and spy hole at no extra cost.

Colour options have been chosen to reflect what homeowners are asking for most, ranging from classic Black, ever-popular Anthracite Grey and Chartwell Green, through to bold statement colours such as Ruby Red.

The 10 working day lead time applies as standard for factory-direct deliveries, while customers receiving doors via Hörmann despatch can expect delivery within 10 days plus their next scheduled run, providing reliability and consistency that installers can plan around with confidence.

Commenting on the promotion, Colin Grey, Sales Manager at Hörmann Truedor, said: "The Tremendous 10 promotion has been developed to give our trade customers a simple, competitive and highly saleable composite door offer. By focusing on 10 door styles, 10 colours and a 10-day delivery, we're able to offer outstanding value without compromising on quality. It also gives installers the reassurance of fast, reliable service and doors that are sustainably manufactured here in the UK. This promotion is just one of several initiatives designed to actively support our customers in growing their composite door sales."
